CHARLES HORNE,

Road Agent.

We, the auditors of Moultonborough, for the year ending February 15, 1903, certify that we have examined the foregoing accounts of the Road Agents of the said town for said year and find them properly vouched and correctly cast.

JOSEPH G. ABBOTT,

LEWIS A. SIBLEY,

Auditors.

February 14, 1903.

## Report of the School Board.

Our schools have been quite successful in the past year. As compared with other years their present condition is gratifying.

The teachers have given general satisfaction to schools and officials. It is not necessary to mention each teacher or school in detail. No other public servants of the town are annually complimented or discredited by published personal remarks.

The maintenance of good order in the school room is one of the duties of every teacher, and we can say that the order in nearly all of our schools has been excellent. The authority of the teacher, we feel sure, has been exercised with moderation and prudence, accompanied with dignity and impartiality.

Order is a necessity. It can best be obtained by the parents cheerfully surrendering their power and authority to, and giving a hearty co-operation with the teacher in the methods used. When these duties have been fully performed, then, and then only, are the teachers responsible for the success of the schools.

To have good schools requires not only good teachers, but the hearty co-operation of the parents with the teacher. Parents cannot take too deep an interest in the welfare of the schools, for in them to a great degree are laid the foundations of the mental, moral, and physical character of their children.

One evil of our schools, which we would call to your attention, is the lack of punctuality in attendance. When we reflect that the great mass of our population receive their entire education in our common schools, we are led to consider the importance of a faithful attendance on the part of the pupils.

It is the duty of the parents to see that their children are present every day of the entire year. The child who is absent two or three days in a week loses interest in his work, gets

behind his class, adds to the labor of his teacher, and is a hindrance to the school.

Respectfully submitted,

JOHN E. SWEET,

LEWIS A. SIBLEY,

Committee.
